

Appl. No. 10/604,710
Amdt. Dated October 15, 2004
Reply to Office action of July 28, 2004

Amendments to the Specification

Please replace the title with the following amended title:

[Novel topical skin care and nutraceutical applications of Glabridin or extracts containing a defined amount (4-90%) of Glabridin]

Please replace paragraph [0030] under section title "Abstract of Disclosure" with the following amended paragraph:

[0030] ~~This application is a continuation in part of pending US Patent Application # 10065995 by the authors, filed on December 9, 2002, for a Commercial Process for Isolation and Purification of Glabridin with High Tyrosinase Inhibitory Activity and its Cosmetic Compositions and Methods Of Use.~~ The current invention discloses the use of Glabridin containing Licorice extract ~~[[([)] containing 4-90%~~ 40% to 90% Glabridin ~~[[()]]~~ as metalloprotease and hyaluronidase inhibiting component in ~~cosmetic~~ topical or oral formulations. ~~These extracts and particularly Glabridin, are useful in anti-wrinkle and anti-aging products, providing elasticity, firmness, tone and texture to the skin, ameliorating fine lines and crows feet in under eye preparations, and prevent skin and hair damage due to UV rays, inflammation and itch, diaper rashes in baby products, as massage or toning oils or emulsions in babies.~~
